Dr. Nell **Byler**

Australian National University · Research School of Astronomy and Astrophysics
Mt. Stromlo Observatory, Cotter Rd, Weston Creek, ACT 2611

+61 0422-655-374 | nell.byler@gmail.com | nell-byler.github.io/ | nell-byler | lstar_gal

Research Interests

Modelling the resolved and unresolved properties of galaxies
Galaxy Evolution · Star Formation · Ionized Gas
Stellar Evolution Models · Chemical Enrichment

Education

University of Washington

2017 **Ph.D. in Astronomy**
2013 **M.S. in Astronomy**

Wellesley College

2011 **B.A. in Physics**, John Charles Duncan Prize in Astronomy, Sigma Xi research honors.

Research Experience

Postdoctoral Fellow — Australian National University, RSAA 2018 – Present
Collaborators: Lisa Kewley
- Stellar and nebular signatures of star formation in galaxies

Doctoral Research — University of Washington 2014 – 2017
Collaborators: Julianne Dalcanton (Adviser), Charlie Conroy
- Thesis: Building galaxy models with self-consistent prescriptions for stellar and nebular emission

Graduate Research — University of Washington 2014 – Present
Collaborators: Julianne Dalcanton, Dan Weisz
- Calibrating SPS models using resolved star and integrated light observations of galaxies

NSF EAPSI Fellow — University of Tokyo, Kavli IPMU Summer 2013
Collaborators: Kevin Bundy
- SPS codes in 2D: fitting techniques for integral field spectroscopy.

Graduate Research — Instrumentation Shop, University of Washington 2012 – 2013
Collaborators: Nick MacDonald
- MaNGA hardware metrology for IFU ferrules
- MaNGA first light: Assisted during MaNGA prototype hardware observing run at APO to demonstrate instrumentation and observing procedures.

Graduate Research — University of Washington 2012 – 2014
Collaborators: Julianne Dalcanton, Phil Rosenfield
- Constraining late-stage stellar evolution models with Red Clump and AGB bump stars in M31 (PHAT).

Undergraduate Research — Harvard-Smithsonian Center for Astrophysics 2010 – 2011
Collaborators: Anil Seth
- Stellar Populations in Globular Clusters: Used spectroscopy to separate chemically and kinematically distinct subpopulations in massive globular clusters.

Grants & Proposals as Science P.I.

2017 **HST AR-15010 ($86K)**, "PHAT+MaNGA: Using resolved stellar populations to improve the recovery of star formation histories from galaxy spectra"
2016 **After-Sloan-IV proposal (Senior Personnel)**, "The Dynamic Ranger: A Multi-Scale Survey of Galaxies"
2015 **HST AR-14283 ($83K)**, "Detangling Galaxy Spectra: A Baseline Calibration Using Resolved Stars"
2015 **Royalties Research Fund Grant ($27K)**, "Beyond stars: Modeling the light from galaxies"
2015 **MaNGA Ancillary Program**, "MaNGA Resolved Stellar Populations"
2013 **NSF EAPSI Fellow ($5k + travel and lodging)**, "Refining Stellar Population Synthesis Models"

Presentations

2016	**Workshop: Galaxies Near and Far**	Santa Rosa, CA
2016	**Spectral Fitting Workshop: FSPS + MaNGA**	Tokyo, Japan
2016	**SDSS-IV Collaboration Meeting**	Madison, WI
2016	**Interplay between Local and Global Processes in Galaxies**	Cozumel, Mexico
2015	**Fitting Stars, CMDs, & Galaxies Workshop**	Rockport, MA
2015	**AAS Winter Meeting** *(poster)*	Seattle, WA
2014	**IAU 309** *(poster)*	Vienna, Austria
2013	**NSF EAPSI awardees conference** *(poster)*	Tokyo, Japan

Service & Committees

2016 **Department Curriculum Review Committee**, Graduate Student Representative
2015 **Diversity Journal Club**, Organizer & Discussion Leader
2014 **CAphEINE (weekly arXiv discussion)**, Organizer & Discussion Leader
2012 **Graduate and Professional Student Senate**, Senator

Teaching Experience

Upward Bound Astronomy Section Instructor Summer 2012
- Designed coursework and lead daily sections during 6-week program.

Teaching Assistant: Astronomy 480 2015 – 2016
- Senior-level undergraduate course on data reduction techniques. Organized course material and lead lecture on coding practices. 2 quarters.
- Planning and supervising observing runs for term projects.

Teaching Assistant: Astronomy 101, 150 2011 – 2014
- Introductory undergraduate courses. Lead labs and activities, reviewed lecture material for $\sim$ 60 students twice per week. 6 quarters total.

Outreach

Astronomy on Tap, Seattle 2015 – Present
- Event co-organizer; satellite location co-founder.
- Logo and poster design.

Pre-Major in Astronomy Program (Pre-MAP) 2012 – Present
- Diversity Journal Club Chair: organized inclusion-centered discussions and presentations.
- Community building: organized annual retreats to VLBA site in Brewster, WA; LIGO Hanford Observatory.

UW Mobile Planetarium 2011 – Present
- Designed and executed curriculum for summer program at East African Community Center.
- Integrating student-lead planetarium presentations into high school physics classes.
- Incorporating UWMP into STEM-related activities: science fairs, space day, math festivals.

Numerous public talks: science camp for middle school girls, Olympic National Park, Nerd Nite, EMP museum.
